

Editor In Chief Message

Welcome to the 2022 June edition of ISERS Newsletter. It is an honour and pleasure to write welcome notes on newsletter of "International Society of Environmental Relation and sustainability (ISERS)". Carbon emission and generation of waste in terms of plastic waste, bio-medical waste, electronic waste etc are creating significant damage in the environment such as polluting soil, water, air and nature. ISERS Events and Activities will address all these critical issues with appropriate solutions and will dissipate the knowledge so that each and every individual across the globe gets the benefit. The increasing demand for energy consumption worldwide and emerging environmental issues trigger the motivation in development of green, renewable energy sources. These demands can be potentially met by environmental motivation and technology transformation, which became one of the most challenging research fields of modern environmental science and technology. In this newsletter we can have a glimpse of ISERS Past events, Activities and Achievements. Building on the success of previous events, we look forward to learning the latest results from top industrial, government, and academic in future. We are indeed in a time of great innovation in environmental science, so please come and enjoy the research, and report your results!

Our glittering accomplishments in the year 2022.

ISERS for Curious Researchers

ISERS creates interdisciplinary approach to examine the nature, mechanisms and societal implications of curiosity by organizing International Conferences, Workshops & Scientific events. Asia for Earth is a platform to share and strengthen the pivotal aim of increasing sustainability to create a healthier organization, economy, and climate.

ISERS created employment, engagement opportunities, and livelihood for our Professional network who accompanied us as Joint Supervisors, Consultants for Research Assistance & Guidance, Research Article Assistance, Editors, and Speakers in the Covid time.

Our Milestones 2022...

Our Wondrous Success Stories...

Asia For Earth 2022

Asia For Earth 2022: Global Climate Change and Ecological crisis is the biggest concern today, on which every researcher and responsible research universities must work together to contribute innovative solutions. Potential Universities, Research centres and Higher educational institution of Asia.

Our Exhibitor - Gerlink Energy Nusantra, Indonesia

Gerlink Energy Produces Various Eco-friendly powerplant devices. Inspired from nature built to keep it safe and clean. The products Gerlink Energy offers are domestic and non-B3 medical waste treatment systems using the hydrothermal method. The results of this system produce hydro charcoal and tar liquid which can be used as plant fertilizers.

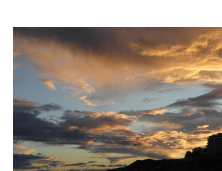

Our Pioneering In-House Journals

- ✓ International Journal of Agro Nutrifood Practices
- ✓ Technoarete Transactions on Climate Change and Disaster Management
- ✓ Technoarete Transactions on Renewable Energy, and Sustainability
- ✓ Technoarete Journal on Earth and Planetary Sciences Research
- ✓ Technoarete transactions on Polymer science and chemical engineering Research
- ✓ Technoarete transactions on Recent Research in applied Microbiology and Biotechnology

Octahelix Collaboration Vs Climate Crisis
 Climate Change Conference Solves Global Problems with Magnificent Octahelix Collaborations

Sustainable Way of Living – GoGreen
 sustainable conference elaborates us the way of living means living in the relationship with the environment.

Save Trees – An alternative for wood
 There are recent estimates shows that there are roughly around three trillion trees living on the earth and about 15.3 billion .

Our Significant Notice of Conference & Co-host MOU Signed

- ✓ Sister Nivedita University, India
- ✓ Universiti Malaysia Kelantan (Faculty of Earth Science), Malaysia
- ✓ Philippine Normal University Visayas, Philippines
- ✓ Xiamen University, Malaysia
- ✓ Universitas Indo Global Mandiri, Indonesia
- ✓ Institut Teknologi Nasional, Indonesia
- ✓ Universitas Dwijendra, Indonesia
- ✓ MAHSA university, Malaysia
- ✓ Universitas Islam Negeri, Indonesia
- ✓ Global Forum for Sustainable Rural Development, India
- ✓ Banat University of Agricultural Science and Veterinary Medicine Timisoara, Romania

Our Magnetizing Speakers:

ISERS provided a number of thought-provoking speakers who shared their scientific knowledge and experience with our delegates. Distinguished leaders from academics and industries provided keynote speeches and guest lectures.

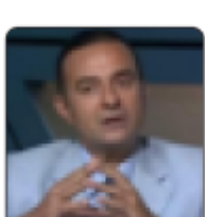

Dr. Bambang Sugiyono AP
 Associate Professor
 State Polytechnic of Malang
 Indonesia

Dr. Mohamad Faiz Bin Mohd Amin
 Associate Professor and Dean
 Faculty of Earth Science
 Universiti Malaysia Kelantan
 Malaysia

Mr. Alan Tupicoff
 CFO, Executive Board F.O.S
 President of ANZISM
 Australia

Dr. Wafik Noscir
 Member of World Congress
 for Environment
 Egypt

Dr. Saied Pirasteh
 Head
 GeoAI Smarter Map and LiDAR Lab
 Southwest Jiaotong University, China
 Research Collaborator, Waterloo, Ontario

Mr. Serge Morand
 Faculty of Veterinary Technology
 Kasetsart University
 Thailand
